ENIVA PARTICIPATES IN MN ANNUAL AUTISM CONFERENCE

FOR IMMEDIATE RELEASE

(Minneapolis, MN)

Eniva was recently a sponsor of the annual MN Autism Conference. Nearly 700 therapists, medical practitioners, educators and experts in the field of Autism were present at the event. Educational presentations, breakout training sessions and keynote speakers filled the four-day event.

Eniva exhibited and trained on its line of advanced nutraceuticals which have demonstrated nutritional support and evidence based outcomes for individuals on the Autism spectrum.

1 in 80 individuals, particularly children, are on the spectrum. Services and products to support those with Autism have recently been increasing, and infrastructures to improve the quality of life for this population is expanding.

Stated Eniva CEO Andrew Baechler, "There is currently no cure for Autism, and nutritional supplementation is not a treatment for the condition. However, there is exciting documented research showing certain nutrients can help support the physiologic needs of individuals with autism. Eniva is the expert in delivering those nutrients in a way that is most efficient for the body to use them."

Eniva Nutraceuticals, founded in 1998, designs, manufactures and distributes premium quality nutritional supplements and body care products at its Minneapolis, MN headquarters. Formulated by a practicing medical doctor, Eniva nutraceuticals and cosmeceuticals are made under strict GMP and CFR-21 guidelines. They are formulated to threshold potency levels, and delivered primarily in a proprietary liquid format. Stringently tested for safety and purity, Eniva products are regarded in the industry as the gold standard for innovative, high quality and efficacious nutritional supplements.
