

Eniva Supports Veterans at GUMI Camp

GUMI Camp USA is a special place where our US Veterans are able to go to heal. Its vision is to see US Veterans flourish in society as civilians

and realize their potential, with hope and motivation for the future. GUMI, which stands for Glad You Made it, focuses on helping equip, strengthen and encourage US Veterans with educational, emotional and spiritual resources to understand and

overcome deployment-related issues. Located in a serene working ranch setting, GUMI Camp USA resides on a 258-acre piece of property in southeast Taney County, Missouri. Veterans may live there without cost to them and heal at their own pace. At full capacity, it will house approximately 30 veterans on a working ranch. GUMI camp is made possible by the hard work and donations of Tim Hadler and his wife Angela, along with local veterans.

Eniva is proud to support the veterans of GUMI Camp, by providing ongoing nutritional supplementation for their health needs. Veterans there report seeing significant benefits while using Eniva supplements, for both their physical and emotional health.

GUMI CAMP USA

Donations to GUMI Camp are especially needed.

To DONATE, please go to www.gumicampusa.com/donate

Eniva looks forward to partnering further with GUMI Camp to help veterans achieve the wellness and wellbeing they deserve.
